

FOR IMMEDIATE RELEASE

**COMPASSIONATE CERTIFICATION CENTERS, AFFINITY BIO PARTNERS, and AI HEALTH OUTCOMES  
(CANNABOT™)**

**TO INITIATE PATIENT FOCUSED MEDICAL MARIJUANA RESEARCH STUDY IN PENNSYLVANIA**

**PITTSBURGH, Pennsylvania and CHESTER SPRINGS, Pennsylvania - June 17, 2019** – [Compassionate Certification Centers](#)™, a medical cannabis healthcare network, in collaboration with [Affinity Bio Partners](#), a Clinical Research Organization (CRO) and AI Health Outcomes, CannaBot™, is pleased to announce the initiation of a medical marijuana focused observational study in Pennsylvania. The goal of this retrospective observational electronic study will be to gather data and measure medical marijuana patient reported outcomes from the Pennsylvania Medical Marijuana Program. This patient focused study will help provide valuable data and patient centered insights into the Pennsylvania Medical Marijuana Program, from initiation to current day.

“The data collected through this collaborative effort will provide tremendously valuable information about the medical cannabis program in Pennsylvania, in particular from a patient perspective.”, stated Dr. Bryan Doner, Compassionate Certification Centers co-founder and Chief Medical Officer. Dr Doner added “We hope this data and analysis can be used to better Pennsylvania’s medical marijuana program moving forward while at the same time providing a platform for similar projects in the future.”

Headquartered in Pittsburgh, Compassionate Certification Centers has 11 medical cannabis offices throughout the state of Pennsylvania. The Medical Cannabis Health Network provides evaluations and continued treatment services for patients. Compassionate Certification Centers recently launched its own line of THC-free CBD products, available to patients and non-cardholders.

“Compassionate Certification Centers’ focus on clinical research and vision for a more inclusive healthcare system aligns with our own.”, stated Christina DiArcangelo Puller, CEO, Affinity Bio Partners and AI Health Outcomes. CannaBot™. “Together, we will be able to see how the patients are doing within the Pennsylvania Medical Marijuana program. We look forward to collecting the patients’ responses to the specific questions via the CannaBot™.”

DiArcangelo Puller, alongside Dr. Bryan Doner, are slated to participate in upcoming World Cannabis CBD Awards in Barcelona, Spain July 17<sup>th</sup> to 19<sup>th</sup> 2019. For more information visit [cccregister.com](http://cccregister.com).
